

Product information

Speick Men Shaving Cream

Frothy foam, naturally nurturing

Speick Men Shaving Cream is a fine, creamy shaving foam for wet shaving. It is very gentle and contains bees wax and glycerin, which smoothes and cares for the skin. Speick Shaving Cream does not contain any preservatives.

A little bit of Speick Men Shaving Cream goes a very long way making it very economical to use. It is herbal, aromatic and refreshing and contains Speick Plant extract, grown and harvested in its natural environment in accordance with bio-regulations. The fine, voluminous foam ensures gentle, caring shaving.

Tip: the shaving cream solidifies at peak summer temperatures of over 30° C / 86F. If it is cooled down, it regains its fluidity without any loss of quality.
