

## Product information

### Speick Men Shaving Stick

Frothy foam, naturally nurturing

Speick Men Shaving Stick is a gentle, refreshing herbal shaving soap that produces a really great lather. Like all pure soaps, it does not contain any preservatives.

Speick Men Shaving Stick contains Speick plant extract, (grown and harvested under bio-regulations) from high up in the Alps, and waxes to protect the skin. It has a smoothing effect on the skin and its firm foam guarantees a perfect, gentle shave.

Speick Men Shaving Stick is a genuine traditional product and many wet shavers cannot rate it highly enough: it provides a perfect, thorough shave every time, the soap produces a creamy, moisturizing lather and it can be used extremely economically.

#### Ingredients:
