Speick Woman Body Spray

Refreshing, aromatic water

Speick Woman Body Spray is refreshing, aromatic water containing moisturizing glycerin. A combination of essential oils gives it its fruity, fresh fragrance.

Speick Woman Body Spray: perfume and skin care at the push of a button. The scent of the natural oils is released immediately upon spraying and has a pleasantly invigorating and refreshing effect. The Speick Plant extract (controlled harvesting in a natural environment) has a harmonizing effect; the glycerin cares for and protects the skin.

Speick Woman Body Spray was developed in accordance with BDIH (Federation of German Industries and Trading Firms for pharmaceuticals, health care goods, dietary supplements and personal hygiene products) "Approved Natural Cosmetic" guidelines. Natural essential oils stimulate, refresh and invigorate the senses.

Speick Woman Body Spray is a unique fragrance experience and a genuine innovation in the 75 year old tradition of Speick.
