Nourishing and vitalising

Speick Thermal Lotion – the vitalising bodycare experience for silky-smooth skin and a cared-for feeling. Specifically developed for harmonising care of sensitive skin. Provides revitalizing moisture and ensures a vital sense of freshness. The rich soothing care supports the skin's membrane function and natural elasticity for a new feeling of wellbeing.

Speick Thermal natural cosmetics contain pure juvenile water from the Schlangenbad thermal spring with dissolved silica and the unique, nourishing extract of the micro alga *Spirulina platensis*.

Only plant-based carefully matched raw materials are used for Speick Thermal natural cosmetics; this vitalising systematic care is vegan. All products contain the harmonizing extract of the Speick plant from the High Alps (certified organic harvesting).

Tip: Ideal after showering. To intensify the effects, briefly rub your hands together, take some lotion out of the dispenser bottle and massage towards the heart in circling movements.
