Speick Thermal
Natural cosmetics

Silicea + Alga
for sensitive skin

Night cream Reactivating and nourishing

Speick Thermal night cream, the rich, nourishing thermal cream for reactivating support of the vital functions and regeneration of the skin. For fresh energy and appearance, silky smoothness and a new sense of wellbeing.

Speick Thermal natural cosmetics contain pure juvenile water from the Schlangenbad thermal spring with dissolved silica and the unique, nourishing extract of the micro alga Spirulina platensis.

Only plant-based carefully matched raw materials are used for Speick Thermal natural cosmetics; this vitalising systematic care is vegan. All products contain the harmonizing extract of the Speick plant from the High Alps (certified organic harvesting).

Tip: Can also be used as a regenerating face mask. Apply cream liberally and remove remaining cream with a cotton-wool pad after 15 minutes.
