

NEW!**Product information****Speick Thermal face care**
Natural cosmetics**Silicea + Alga**
for sensitive skin**Cleansing milk** *Mild and harmonising*

Speick Thermal cleansing milk – skin-friendly cleansing and nourishing, skin-soothing harmonising care. Specifically developed for sensitive facial skin. With that little extra in skin protection, vitalization and specific moisture care to optimize the hydro-lipid balance.

Speick Thermal natural cosmetics contain pure juvenile water from the Schlangenbad thermal spring with dissolved silica and the unique, nourishing extract of the micro alga *Spirulina platensis*.

Only plant-based carefully matched raw materials are used for Speick Thermal natural cosmetics; this vitalising systematic care is vegan. All products contain the harmonizing extract of the Speick plant from the High Alps (certified organic harvesting).

Tip: Apply cleansing milk to cotton-wool pad. Rub off in circling movements, starting at the forehead. The gentle massage effect enhances the effects of the ingredients.
